

## Mini Termination Box - LTX

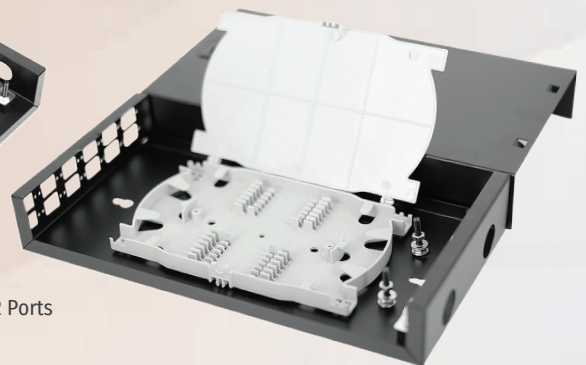

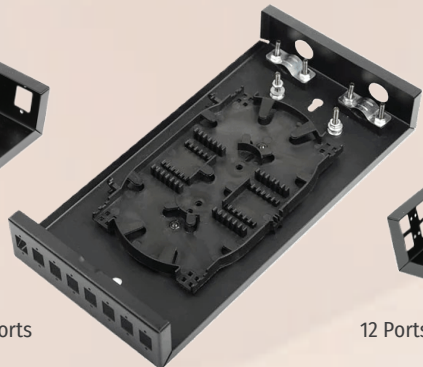

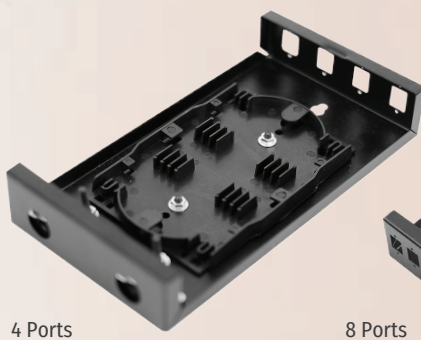

### Features

- Window cuts as small as 50mm possible with specific cable constructions such as the TE Mini-breakout cable
- Drop cables can be directed to 4-12 different sides by rotating the splice module on the base module
- Rugged and durable construction for long term reliability (UV resistance)
- Free breathing enclosure for indoor use
- Front accessible
- Wrap around riser cable installation
- Not required to cut loop-through fibers from riser cable
- Can hold 4-24 LC connectors or 2-12 SC connectors
- Compatible with mechanical splice, heat shrink protectors in the same splice holder

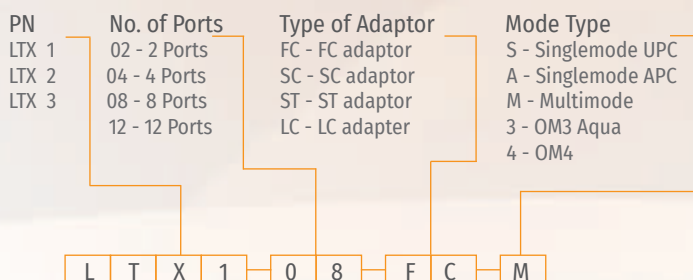

### Specifications

| Parameter                       | 1                                   | 2                                   | 3                                   |
